Re: Response from Resource Development Coordinating Committee (RDCC), Rosebud Quarry,
M/003/026, Box Elder County, Utah

Dear Mr. Thomas:

On August 21, 2000, we received notification from RDCC stating that your Rosebud Quarry is subject to Utah Air Conservation Rules - since fugitive dust emissions may be generated during mining activities. RDCC informed us that you will need to submit a Notice of Intention to Air Quality if any on-site crushing of stone occurs.

If you have not already done so, you will need to contact the Division of Air Quality at 150 North 1950 West, SLC, 84116 to determine if you need a permit for this operation. Please send us a copy of the air quality permit once obtained, or a copy of their letter exempting your operation from requiring this permit.

Thank you for your immediate attention to this requirement.

Sincerely,

A handwritten signature in black ink, appearing to read 'L. Kunzler'.

Lynn Kunzler
Senior Reclamation Specialist
